

INTER DOOR

**POLISH MANUFACTURER
OF PREMIUM DOORS**

Durability

Our doors are heavier than others but lighter to move. After many years, they are as beautiful as the day you bought them.

Nature

We work in close contact with nature, from where we draw inspiration for your door. We use natural materials to make them blend in perfectly with your interiors.

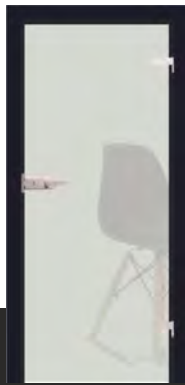

Personalization

Do you have a bold and original design? We will match it with a custom and unique door.

Interior wooden doors

Interior glass doors

Interior wooden and glass sliding, wall-mounted and cassette doors

Wide range of accessories
Choose silver, gold or black hardware - hinges, door handle with escutcheons, peephole panoramic or with camera and bell), insert with knob. Equip the door with a door closer, reed switch, electric door strike or other access control (such as a card reader).

Colors and designs to match the customer's vision
Choose from more than 50 veneers and hundreds of RAL and NCS colors.

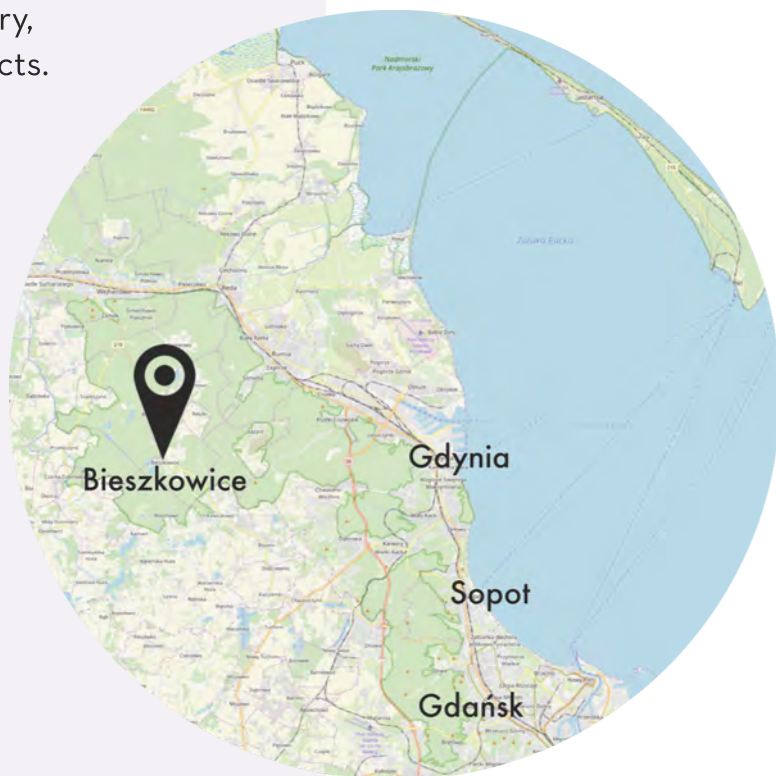

We are not a mass manufacturer.

We resemble more of a modern manufactory, with more than 30 years of individual projects. We are a family business with a history dating back to 1990.

We emphasize nature in the production of our doors. Our factory, located in the heart of the Tri-City Landscape Park, is surrounded by Kashubian forests and regularly undergoes environmental inspections and audits.

People and production.

Our staff of nearly 200 skilled workers oversee the entire production process. We focus on the personalization of doors and despite being a modern factory, all our products are made to individual orders.
