Product packaging is a real ecological revolution! Innovative composition based up to 40% on grass fibers obtained from ecological compensation areas. Reducing the use of chemicals means reducing CO2 emissions by up to 75%.

DIAMOND GLASS

Everything you need for a flat screen

DIAMOND GLASS flat tempered glass covering the entire flat part of the device screen. It is like a copy of the original screen. The most scratch-resistant (9H/8Mohs).

-  scratch resistance
-  effective protection from crash
-  perfectly transparent
-  easy cleaning

HARDNESS: 9H

EASY CLEANING: VERY HIGH

THICKNESS: 0,33 mm + 0,27 mm ADHESIVE

 **EASY APP® KIT™** is a set of special stickers included in the package, which make the installation of glass or film quick and efficient.

DIAMOND GLASS EDGE

Maximum screen coverage!
For slightly curved screens

DIAMOND GLASS EDGE has high scratch resistance while maintaining the original appearance of the screen. Compared with ordinary flat glass, it covers a larger area of the screen, including slightly curved edges. It covers the maximum area of the screen. The most scratch-resistant (9H/8Mohs).

-  scratch resistance
-  effective protection from crash
-  perfectly transparent
-  easy cleaning

HARDNESS: 9H

EASY CLEANING: VERY HIGH

THICKNESS: 0,33 mm + 0,27 mm ADHESIVE

 **EASY APP® KIT™** is a set of special stickers included in the package, which make the installation of glass or film quick and efficient.

DIAMOND GLASS EDGE 3D

Superior scratch resistance
with device-colored frame

DIAMOND GLASS EDGE 3D Made of flexible glass subjected to a three-stage tempering process. Product for rounded screens. The oleophobic coating makes it easy to remove fingerprints and dirt and improves the comfort of the touchscreen.

-  scratch resistance
-  effective protection from crash
-  perfectly transparent
-  easy cleaning

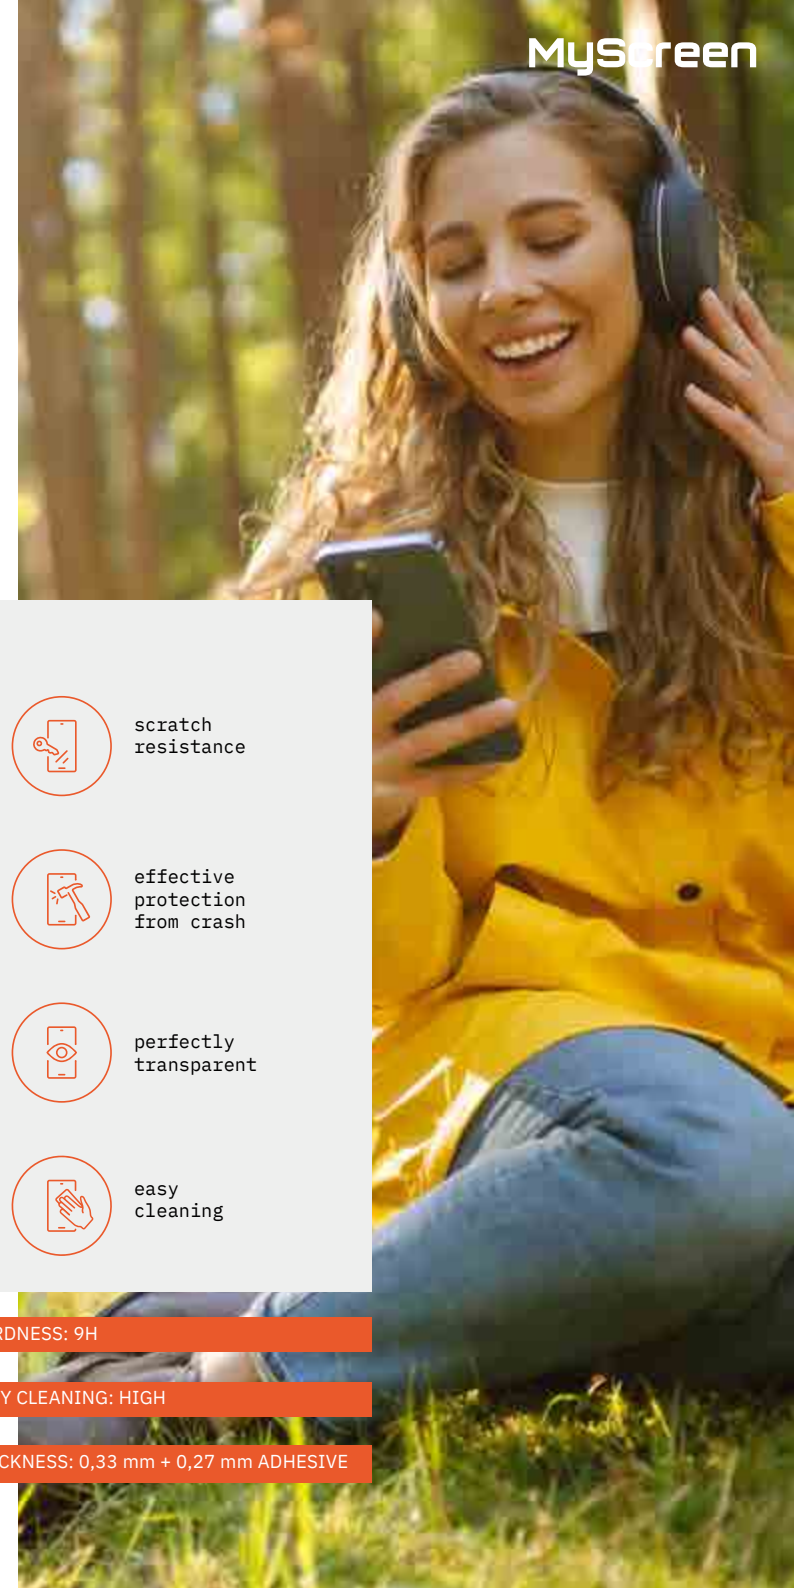

HARDNESS: 9H

EASY CLEANING: VERY HIGH

THICKNESS: 0,33 mm + 0,27 mm ADHESIVE

 **EASY APP® KIT™** is a set of special stickers included in the package, which make the installation of glass or film quick and efficient.

DIAMOND GLASS L!TE

Efficient protection against scratches

DIAMOND GLASS LITE - glass that provides the best protection against scratches. It is designed for flat screens and flat parts of curved screens. The glass is case-friendly and fits most cases available on the market.

 **EASY APP® KIT™** is a set of special stickers included in the package, which make the installation of glass or film quick and efficient.

-  scratch resistance
-  effective protection from crash
-  perfectly transparent
-  easy cleaning

HARDNESS: 9H

EASY CLEANING: HIGH

THICKNESS: 0,33 mm + 0,27 mm ADHESIVE

DIAMOND GLASS EDGE L!TE

Perfect protection against scratches

DIAMOND GLASS EDGE L!TE provides the best protection against scratches thanks to its high hardness (9H). It keeps the screen readable for much longer. It covers the maximum area of the slightly curved screen.

-  scratch resistance
-  effective protection from crash
-  perfectly transparent
-  easy cleaning

HARDNESS: 9H

EASY CLEANING: HIGH

THICKNESS: 0,33 mm + 0,27 mm ADHESIVE

EASY APP® KIT™ is a set of special stickers included in the package, which make the installation of glass or film quick and efficient.

DIAMOND GLASS ANTI SPY

Keep your data private

DIAMOND GLASS ANTI SPY effectively hides the device's screen from the prying eyes of others. PINs, passwords and other data will be visible only to the user. A special polarizing filter narrows the angle at which the content on the screen is visible.

-  anti-spy
-  scratch resistance
-  easy cleaning
-  firm adhesion to the screen

HARDNESS: 9H

EASY CLEANING: VERY HIGH

THICKNESS: 0,33 mm + 0,27 mm ADHESIVE

Bestseller

EASY APP® KIT™ is a set of special stickers included in the package, which make the installation of glass or film quick and efficient.

DIAMOND GLASS GAMING LITE

Protection for gaming consoles

DIAMOND GLASS GAMING LITE is flat tempered glass covering the entire flat part of the device screen. It is like a copy of the original screen. The most scratch-resistant (9H/8Mo-hs).

advantages of both glass and film

HARDNESS: 8H

EASY CLEANING: VERY HIGH

THICKNESS: 0,4 mm

!IMPACT GLASS

No. 1. The first and only

!IMPACT GLASS is a product that combines the advantages of glass and anti-impact film. It protects extremely effectively against breaking. It is scratch resistant. It does not crack. Its edges do not shatter like in the typical tempered glass.

Bestseller

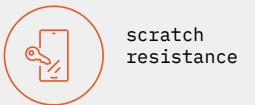

EASY APP® PLUG™ is an innovative method of application by positioning with a USB cable. It significantly simplifies the installation of the protection and prevents movement of the cover when applied to the screen.

HYBRID GLASS

Enjoy long-lasting invisible protection

HYBRID GLASS is the perfect protection against cracks and scratches. With a hardness of 8H, it provides durable screen protection. Hybrid glass, unlike tempered glass, is very flexible. It does not chip, its edges do not shatter - it protects the screen longer than tempered glass.

scratch resistance

doesn't break

doesn't crumble at the edges

easy cleaning

HARDNESS: 8H

EASY CLEANING: VERY HIGH

THICKNESS: 0,25 mm

EASY APP® KIT™ is a set of special stickers included in the package, which make the installation of glass or film quick and efficient.

HYBRID GLASS LITE

Flexible, long-lasting protection

HYBRID GLASS LITE provides scratch protection and impact absorption. It perfectly adheres to the screen thanks to an adhesive layer over the entire surface. It does not chip, its edges do not shatter - it protects the screen longer than tempered glass.

scratch resistance

doesn't break

doesn't crumble at the edges

easy cleaning

HARDNESS: 7H

EASY CLEANING: HIGH

THICKNESS: 0,3 mm

EASY APP® KIT™ is a set of special stickers included in the package, which make the installation of glass or film quick and efficient.

3D EXPERT SHIELD

Edge-to-edge protection, perfect touch, perfect image clarity

3D EXPERT SHIELD An improved version of the first protective film on the market, made of TPU-based material. It has no „orange peel” effect and is pleasant to the touch. It covers almost the entire surface of the screen - including its rounded edges.

-  for curved screens
-  perfectly transparent
-  self-healing layer
-  scratch resistance

HARDNESS: SELF-HEALING REMOVES MINOR SCRATCHES WITHIN 24HRS

EASY CLEANING: HIGH

THICKNESS: 0,17 mm

EASY APP® PLUG™ is an innovative method of application by positioning with a USB cable. It significantly simplifies the installation of the protection and prevents movement of the cover when applied to the screen.

ANTI CRASH SHIELD EDGE 3D

Impact-absorbing protection

ANTI CRASH SHIELD EDGE 3D is anti-impact film protection that keeps your screen safe from edge to edge, also in the case of curved displays. The structure of the material allows it to absorb impacts effectively, strengthening the screen up to 5 times during a fall.

-  for curved screens
-  effective protection from crash
-  perfectly transparent
-  self-healing layer

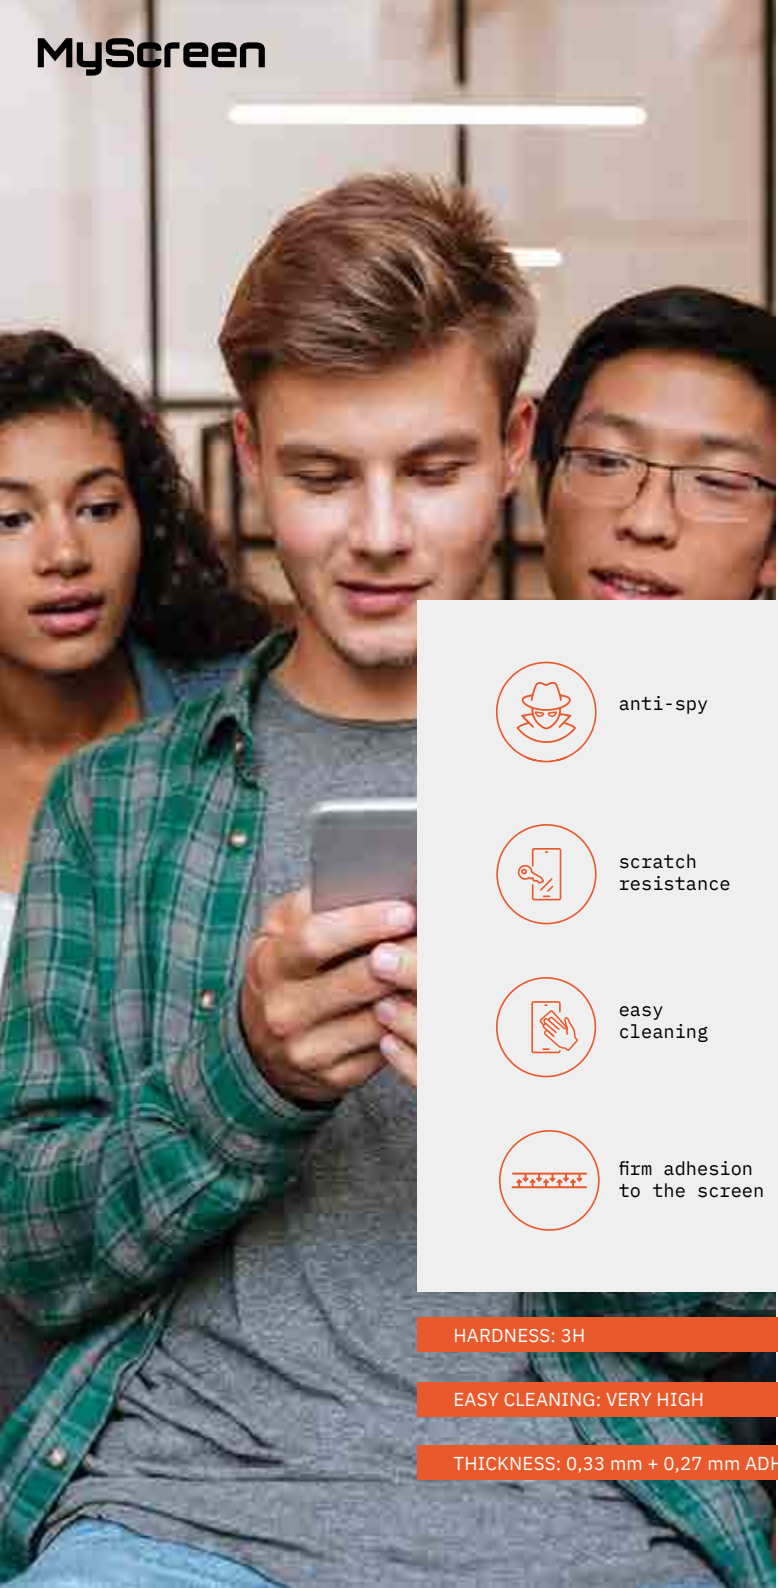

HARDNESS: SELF-HEALING REMOVES MINOR SCRATCHES WITHIN 24HRS

EASY CLEANING: HIGH

THICKNESS: 0,2 mm

WET APP: revolutionary wet application! Safe for the device, easy to carry out in all conditions. Easy to fit – no adjustments!

ANTI SPY SHIELD

Effectively obscures your device from prying eyes of others

ANTI SPY SHIELD effectively hides the device's screen from the prying eyes of others. PINs, passwords and other data will be visible only to the user. A special polarizing filter narrows the angle at which the content on the screen is visible.

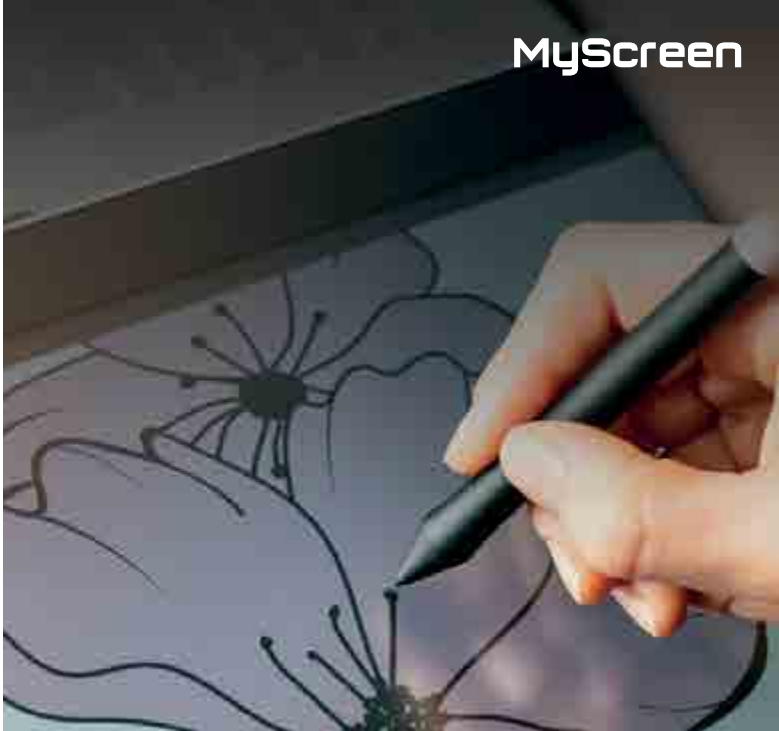

- anti-spy
- scratch resistance
- easy cleaning
- firm adhesion to the screen

HARDNESS: 3H

EASY CLEANING: VERY HIGH

THICKNESS: 0,33 mm + 0,27 mm ADHESIVE

EASY APP® KIT™ is a set of special stickers included in the package, which make the installation of glass or film quick and efficient.

PAPER TOUCH SHIELD

Feels like paper, protects like foil

PAPER TOUCH SHIELD thanks to this protective film, working with the tablet is like writing with a pencil on a piece of paper. The stylus tip does not slip, which allows for comfortable and, most importantly, more precise movement on the screen. The matte finish allows for using the tablet also outdoors.

- anti reflex layer
- eliminates fingerprints
- easy cleaning

HARDNESS: 3H

EASY CLEANING: HIGH

THICKNESS: 0,17 mm

EASY APP® KIT™ is a set of special stickers included in the package, which make the installation of glass or film quick and efficient.

MyScreen

CRYSTAL + ANTI REFLEX

Two films with different parameters to choose from. The Crystal foil is glossy, while the other one is matte and anti-reflective

CRYSTAL - a transparent protective film that is very thin but efficiently protects against scratches.

ANTI REFLEX - a slightly matte protective film that reduces glare and fingerprints.

- CRYSTAL**
 - easy cleaning
 - scratch resistance
 - perfectly transparent
- ANTI REFLEX**
 - anti reflex layer
 - eliminates fingerprints

HARDNESS: 3H

EASY CLEANING: HIGH

THICKNESS: 0,13 mm + 0,13 mm

EASY APP® KIT™ is a set of special stickers included in the package, which make the installation of glass or film quick and efficient.

Automotive products

ANTI REFLEX SHIELD NAVI

Clear and legible screen, even in direct sunlight

ANTI REFLEX SHIELD NAVI is more than just protection. The slightly matte film not only protects the screen against scratches, but also reduces and prevents fingerprints. Thanks to this, your screen will be legible even in full sunlight. It does not affect the protection of the touch screen.

anti reflex layer

removes fingerprints

scratch resistance

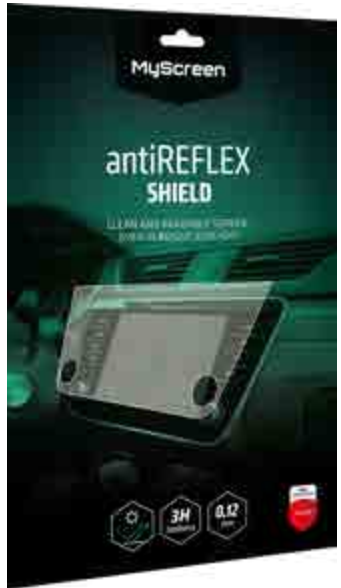

precise laser cut

HARDNESS: 3H

EASE OF STAIN REMOVAL: GOOD

THICKNESS: 0,13 mm

EASY APP® KIT™ is a set of special stickers included in the package, which make the installation of glass or film quick and efficient.

HYBRID GLASS NAVI

Enjoy long-lasting invisible protection

HYBRID GLASS NAVI is unbreakable hybrid glass covering the entire screen of the device. Unlike tempered glass, it is more flexible, thanks to which it adheres better to the screen and does not break. Laser-cut edges do not crumble, and the glass itself lasts longer.

scratch resistance

does not break

doesn't crumble at the edges

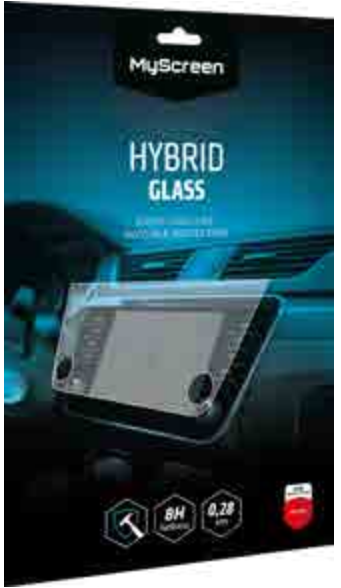

easy cleaning

HARDNESS: 8H

EASE OF STAIN REMOVAL: VERY GOOD

THICKNESS: 0,25 mm

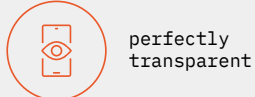

EASY APP® KIT™ is a set of special stickers included in the package, which make the installation of glass or film quick and efficient.

CRYSTAL SHIELD NAVI

Flash protection

CRYSTAL SHIELD NAVI is a shiny film that protects the screen from scratches, dust and dirt. Enriched with an anti-smudge coating that makes it easier to keep it clean. Thanks to this, you can easily remove fingerprints, smudges and dirt. It does not affect the operation of the touch screen.

perfectly transparent

easy cleaning

firm adhesion to the screen

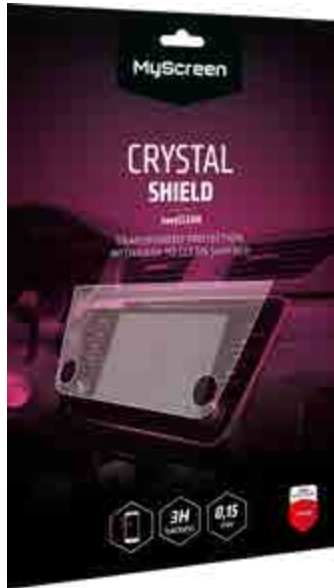

precise laser cut
