

AGROLA

AdBlue®

The product we offer is a product of the highest quality and comply with all mandatory standards (ISO 22241 and EURO 5 and EURO 6). The guarantee of this is the VDA license, a certificate of quality as well as a rich experience of the manufacturer.

www.phuagrola.pl

AGROLA, with its registered office in Florianów (Policzna Commune) is a family-

owned business with rich history. The owner – Robert Rogala – continues the legacy of his father, the founder of AGROLA. As the name suggests, the company initially was involved with the agricultural industry, being an important part of this sector of local economy. In June 2021 our new adventure has started and we become a partner for international AdBlue producent – Crosschem International. This action comes from the increased needs of our customers. We believe that great experience from other european countries and quality product can help us to deliver even better servis to customers in Poland and other european cuntries.

AGROLA, as a distributor of AdBlue® produced by the

CrossChem offers the product of the highest quality –

with every effort to maintain proper storage and delivery conditions. The reputation of producent the

and the professionalism of AGROLA guarantee a satisfying cooperation, involving the following:

- Various forms of AdBlue® supply
- Tanks for AdBlue® storage
- Modular tanks with distribution panels
- Modern systems monitoring fuel distribution
- Fuel and process fluid dispensation accessories

AdBlue® in bulks

ADBLUE® DELIVERY IN BULKS

The main pillar of our business is the delivery of AdBlue® by tanker to the customer's tank. We have our own modern fleet of vehicles dedicated exclusively to the transport of AdBlue® liquid. Our tankers are equipped with legalised distribution systems, guaranteeing precise measurement of the delivered liquid.

We do not use intermediaries and our drivers attach a sealed sample of the fluid to each delivery.

AdBlue® canisters

CANISTERS

The AdBlue® canisters we offer provide drivers with the convenience of refuelling on the road, whenever necessary. Our professionalism has resulted in cooperation with the country's largest wholesalers, motor shops and petrol stations.

We offer canisters in capacity of:

- 5L
- 10L
- 18L
- 20L

also 210L drums

AdBlue® IBC container

DELIVERY OF ADBLUE® IN IBC

Our offer includes the delivery of AdBlue® in 1000 litre pallet tanks („IBC"). This is a practical solution which, combined with the dedicated AdBlue® refuelling kits we offer, provides convenience in storing and distributing the liquid.

Deliveries are made by vehicles with a lift.

Windscreen washer fluid METHANOL

WINDSCREEN WASHER FLUID

To meet the requirements of our customers in the transport industry, we have extended our product range to include professional summer and winter windscreen washer fluid. The product is based on methanol or ethanol, available in 5L canisters.

- Effectively removes road grime and insects from car windows,
- does not foam,
- leaves no streaks,
- safe for windscreen wipers, windows, headlights and seals,
- has a pleasant fragrance.
