

Our company mission is to support medical professionals in saving human life and health by offering them the best possible medical equipment.

We closely cooperate with professional medical staff and patients themselves. We value our users' opinions and their comments are often implemented for mass-produced products. This allows us to continuously develop and improve our product range.

We offer a high-quality, innovative products in the field of specialized medical equipment and furniture: hospital beds and cabinets, examination and treatment tables, trolleys for patient transport and different furniture. We also manufacture stainless steel furniture and system of wall and ceiling panels for operating theatres.

About us...

We are a Polish company founded by courageous people who believed that a local company could become a global partner renowned for its high quality. Most of our employees are dedicated professionals, experienced and highly regarded for many years- this is our strength and value.

The products that we successfully sell to Polish and foreign hospitals are designed and manufactured by us in our plant in the Żywiec region.

We manufacture products for large health care centers and small medical practices....

### Examples of our projects

**MEDICAL EQUIPMENT MANUFACTURER**

**HOSPITAL BEDS**

**TRANSPORT AND SHOWER TROLLEYS**

**TREATMENT AND EXAMINATION TABLES**

### Quality Management Systems

Formed has implemented quality management systems ISO 9001 and ISO 13485, confirmed by certificates issued by DNV GL.

These systems allow us to maintain high quality standards at all stages of the company's activities: in the field of customer contact, in production and logistics processes, as well as in the design of medical devices.

Medical devices manufactured by Formed Pro comply with Regulation (EU) 2017/745 of the European Parliament and of the Council of 5 April 2017 on medical devices (MDR) and other relevant European Union regulations.

We are constantly searching to expand our Distributors and Representatives network all over the world.

## SYMBIO CARE - baby care furniture system

The Symbio Care system is a modern solution that includes psychological aspects in childcare.

SymbioCare is an innovative approach to the care of newborns, resulting from the observation of appropriate regulations, emphasizing the role of care as an activity stimulating all the senses of a newborn, which is the strongest impulse for brain development in the first days of life.

### ADVANTAGES:

- Strengthening the bond between mother and child
- A system, a workplace, not a kitchen piece of furniture
- designed in accordance with the standards and needs of users...because the most important is human being
- Modularity of the solution, work organization
- Resistant, durable and regenerable materials with a lifetime guarantee
- Several different configurations
