ABOUT US

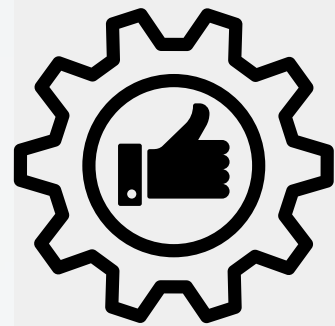

My name is Wojciech Dobrzynski and I am the owner of Unique Cars Poland and UCP Prestige Parts. I sell carbon parts for sports cars. I am a distributor of the Polish manufacturer Matts Performance.

I offer parts for Audi RS3 8Y, R8 Gen.2 and McLaren 720S. Soon the offer will be expanded by Mercedes G63 AMG and BMW M3/M4 (G80,81,82,83).

PRODUCTION

All components are manufactured in Poland by Matts Performance. The design studio and all production takes place in eastern Poland. Shipments are made by the fastest priority parcels. The delivery time of the package itself within Europe is maximum 3 days.

All components have 3 layers of carbon on them, which is not found in similar products from other manufacturers. As a result, the carbon parts are extremely durable, and the workmanship is of the highest level.

FACELIFT FRONT CONVERSION OEM GENUINE

- All needed parts include: front bumper, grilles center and sides, brackets etc
- Painting in your car color code via VIN included in price
- All parts are new OEM genuine made by AUDI
- This is not cheap chinese conversion that not fit made from fiber glass
- Front splitter not included in price

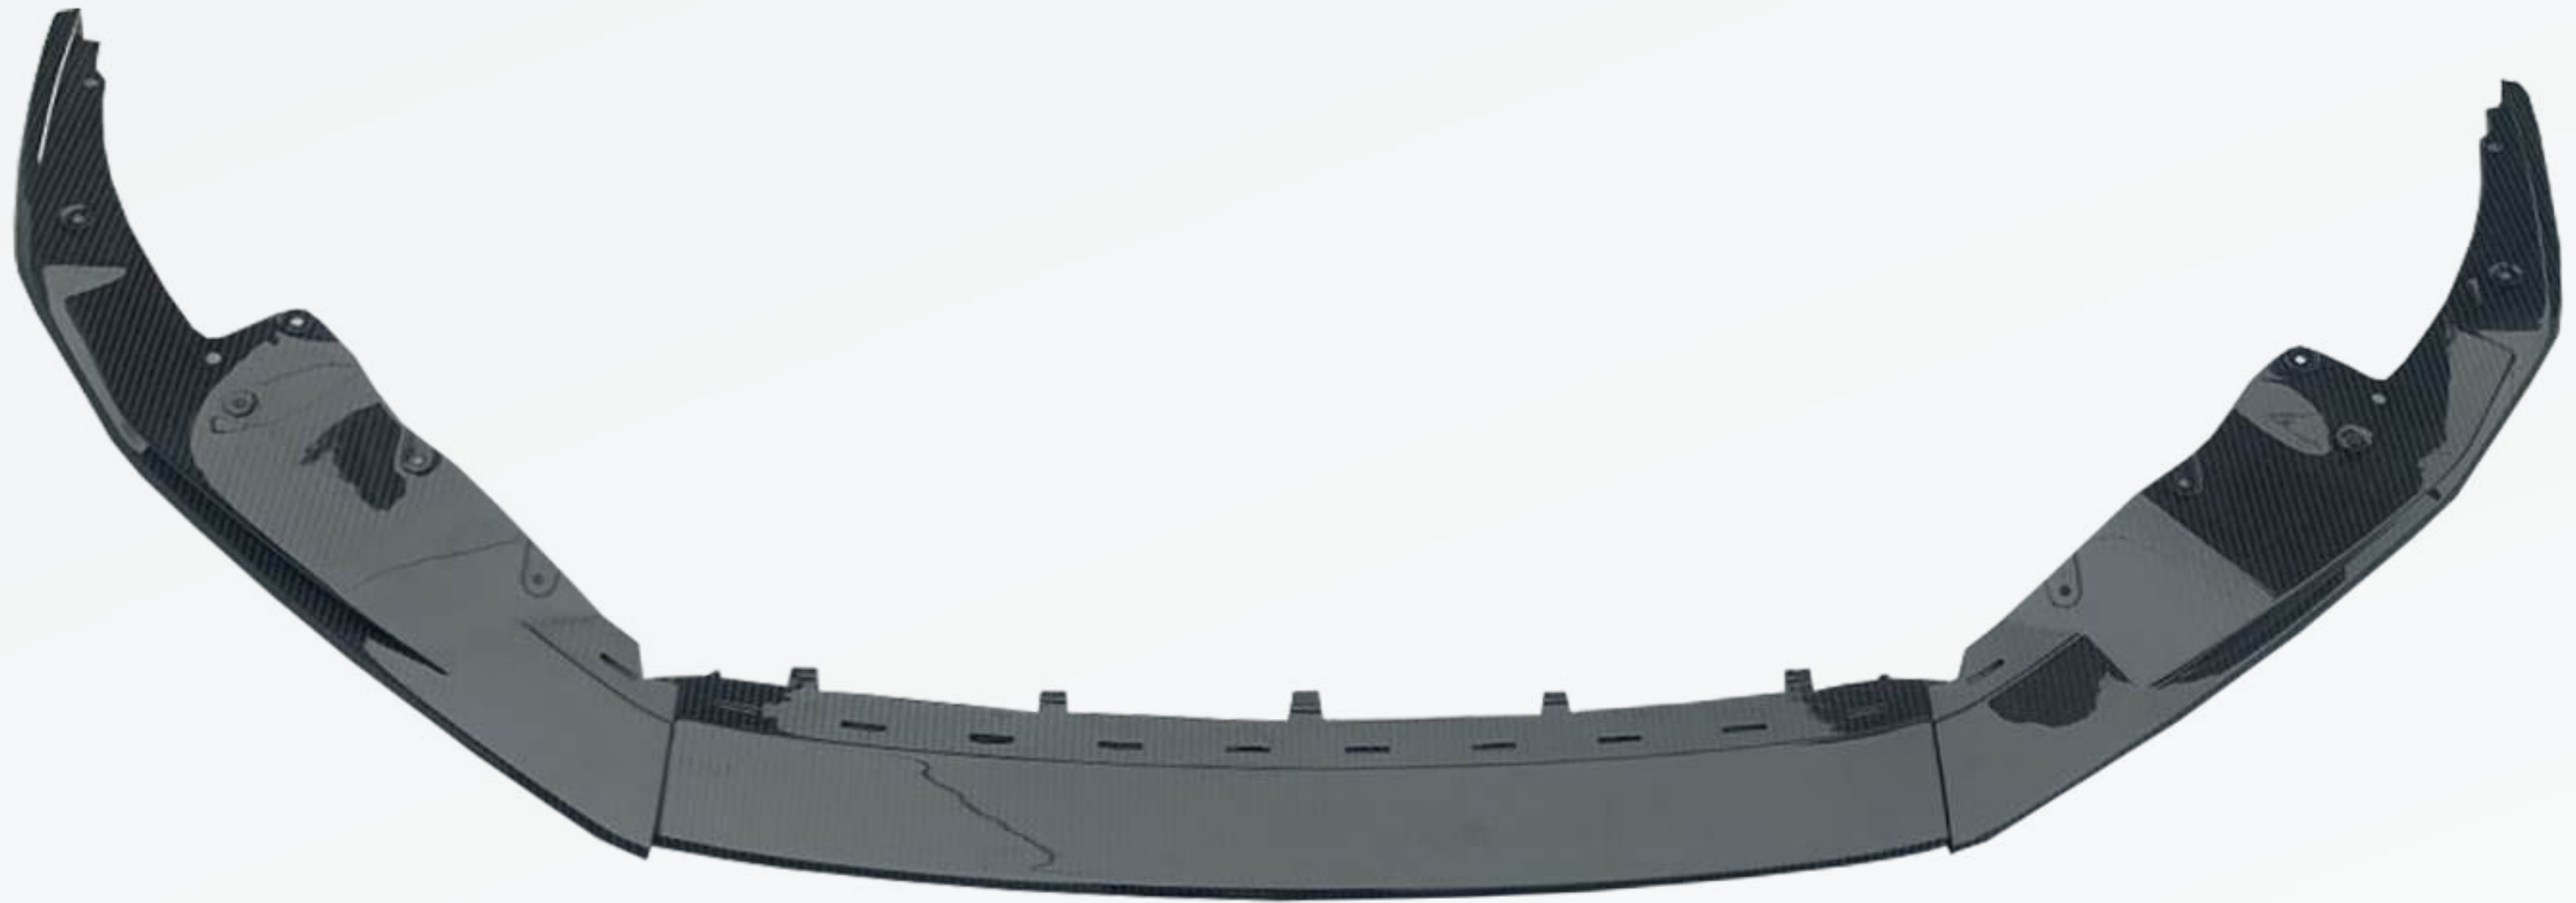

UCP PRESTIGE PARTS
