ABOUT US

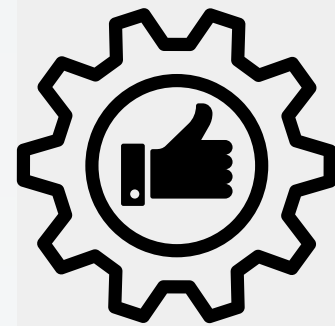

My name is Wojciech Dobrzynski and I am the owner of Unique Cars Poland and UCP Prestige Parts. I sell carbon parts for sports cars. I am a distributor of the Polish manufacturer Matts Performance.

I offer parts for Audi RS3 8Y, R8 Gen.2 and McLaren 720S. Soon the offer will be expanded by Mercedes G63 AMG and BMW M3/M4 (G80,81,82,83).

PRODUCTION

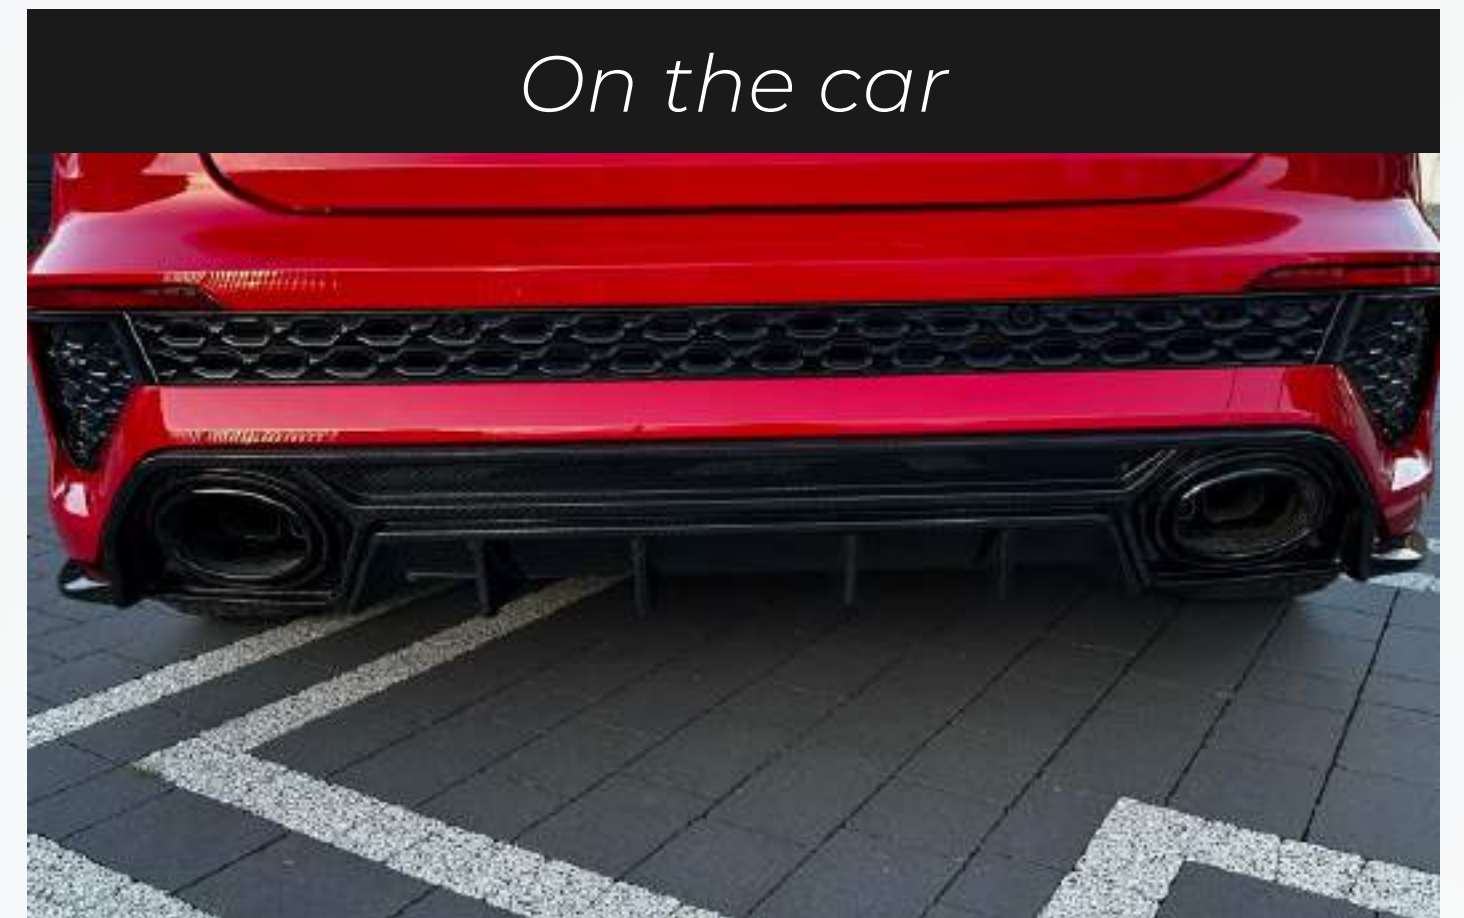

All components are manufactured in Poland by Matts Performance. The design studio and all production takes place in eastern Poland. Shipments are made by the fastest priority parcels. The delivery time of the package itself within Europe is maximum 3 days.

All components have 3 layers of carbon on them, which is not found in similar products from other manufacturers. As a result, the carbon parts are extremely durable, and the workmanship is of the highest level.

REAR DIFFUSER

- Prepreg dry carbon made in autoclave
- Very light version with top finish quality - this isn't high resin product that will get imperfections on sun
- Gloss finish
- Weight 1,3 kg
- Main visible parts made from 3 layers of carbon: 1x225 2x200 1x600
- Top quality with same wave of carbon as OEM twill
- Fitment 10/10 Plug & Play
