

WHAT'S GOING ON?

WHO IS ON?

Behind the idea, the brand and everything we do is ON.

ON, along with his loved ones, is responsible for the ON LEMON brand.

We were, are and will be a family business. Small, but surrounded by a large group of experts.

In a few years we have created a team of irreplaceable people who are lemonade superheroes.

ON
LEMON

WHO THEY ARE?

We love to accompany you to festivals, concerts, exhibitions and fairs because we enjoy a good time ourselves, but we are equally happy to see you drinking our lemonades, teas, tonics and juices or mixing them into your favorite cocktail while sitting at home on your comfy couch and watching your favorite TV series.

We and our team do exactly the same thing...

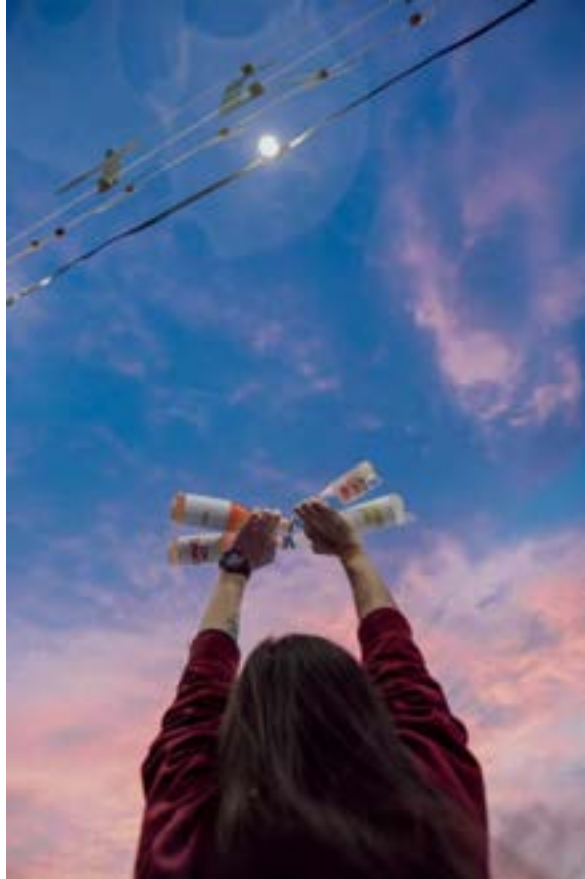

ON
LEMON

ON FOR EVERY DAY

FOR WHO?

We often go against the grain. Our sparkling lemonades, teas, tonics and NFC juices are healthy and natural alternatives to carbonated, corporate products.

We cap and put in your hands dozens of more or less typical flavors, thus satisfying the needs of every palate.

ON FOR EVERY DAY

FOR WHO?

Lemonades
in winter warm up
on the slopes.

In the summer they quench
their thirst after getting
off the kite, bike and
during festivals.

WE HAVE OUR TEAM ON TEAM!

We gather around us a community of enthusiasts and promote young talents – including online!

We are wherever you can feel the adrenaline in the air. Our ON team is made up of MTB riders, snowboarders and skaters who catch the balance with us before competitions, during training and after the best tricks.

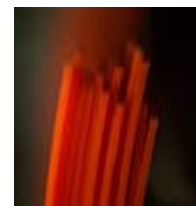

WE LIKE TO SURPRISE

MERCH

In cooperation with the artist OESU and the leading manufacturer Nobile, we created a unique kitesurfing board.

The limited edition model with OESU's distinctive typography could be auctioned, won or bought in the online store.

WE ARE VISIBLE

POS Materials

We value aesthetic and practical solutions. We make sure that we are visible. We are guided by the principle of LESS IS MORE.

We care about the planet, so a large part of our furniture is either second-hand or repaired on an ongoing basis in our workshops.

WE ARE ECO

MERCH

In the distant future, in a world where recycling has become not only a necessary but also an art, an unexpected hero has appeared – the umbrella. Not the one that protects from the rain, but its covering, which after years of faithful service has found a new and fascinating use.

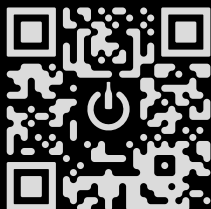

From old covers of our umbrellas
unique bags are created.
Durable and stylish.
Each bag is a new form of life,
combining ecology with aesthetics.
