In the beginning there was fruit and let it stay that way. We do not improve, we do not preserve and stain but we squeeze. We focus on bringing out the natural flavor without unnecessary additives. We are at home, in offices, at events, in restaurants - wherever good taste and ingredients are needed.

Flavours: Pineapple, Lime, Pear, Black Currant, Rhubarb, Gooseberry, Orange, Plum, Cola, Cola Zero.

YERBATA' MATCHBATA' ROOIBATA' ...

There are things that shouldn't be changed. Or improved. It has been — and will be — perfect. Tea. When it comes to tea, we're inspired by everything that has to do with the best infusions in the world: from the rituals of brewing Japanese matcha to sipping yerba mate on a scorching afternoon under a spinning ceiling fan... And that's a perfect pretext to keep on repeating only the best stuff

Flavours: Yerbata, Yerbata Pomegranate, Matchbata, Rooibata, Icebata Jasmine Tea, Icebata Green Tea.

Noble, with history, dry and with a bitter note. Whoever invented the tonic at the end of the 19th century knew exactly what he was doing. Today the iconic and still beloved returns to favor, especially in the hands of the best bartenders, who combine it in fancy cocktails. No one like him likes company, which is why, in addition to the classic taste, we have added the flavors of fruits and herbs.

Flavours: Cucumber-mint, Ginger Beer, Pink Grapefruit, Classic, Rosemary, Elderflower.

We understand the word „juice” in our own way: taste + courage + specificity. That's why we pour into bottles only what's best from the fruits we collect from the trees. And that's it when it comes with the list of the ingredients. #ONLY what's best from the fruits.

Sauvers: Orange, Lime and grape, Apple
