

## BookinGO Lockers

## MARO Office Furniture

---

For 30 years, we have been making sure that office work is comfortable and ergonomic. Our furniture demonstrates our professionalism and love for what we do. We are passionate about creating exquisite and functional things and that translates into a quest for new solutions that turn concepts into products at a higher and higher level. Using innovative engineering solutions, we strive for ensuring that our products are top-notch. Our quality has been proved by ISO 9001 and Geprüfte Sicherheit certificates. This is possible thanks to our technology park, where world-class techniques come together under one roof. As a responsible producer, we wish to minimize our ecological footprint and expect the same from our suppliers.

Our Machinery Park guarantees top quality and precision. Thanks to the investments in new techniques and constant search for unconventional solutions, we thrive all the time. We are aware of how valuable the human factor is, therefore some elements of our furniture are hand-made. Gluing the carcasses of curved counters is a job where the human has an advantage over the machine. However, where surgical precision and repeatability in short time are necessary, we take advantage of the latest technique. Wood processing center drills, mills and processes the edges with utmost precision. The quality of our furniture is based on hundreds of trials and tests, thanks to which we are certain that we are second to none

- Customer shall provide remote access to the computer/server on which the BookinGO Server software is to be installed for the duration of the implementation and in order to provide warranty for the Software.
- It is possible to install a part of the software on a leased external server. Additional fees apply.
- MARO General Terms and Conditions of Sales apply.

# Lockery BookinGO / Equipment

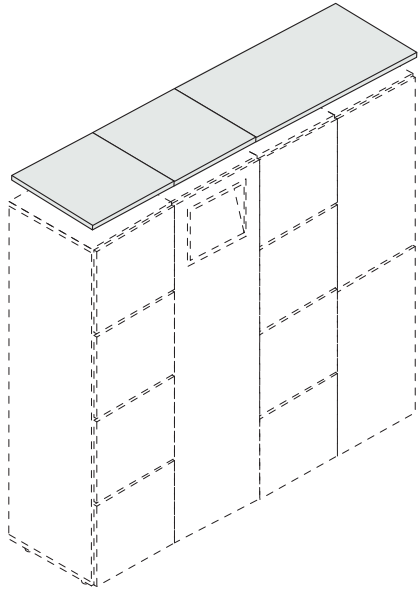

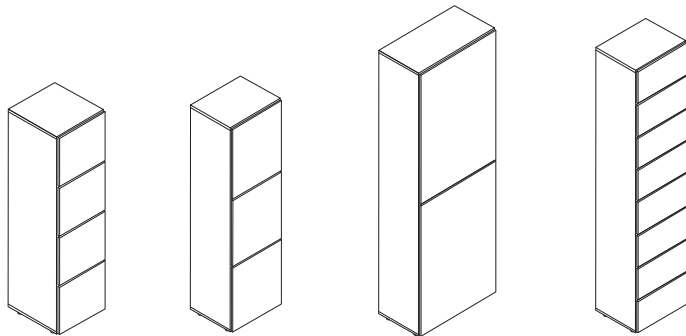

## BookinGO Lockers

BookinGO lockers consist of a control panel column and utility columns, whose dimensions can be adjusted in 10-mm increments. The control panel column is available in the following size ranges: width from 400 to 600 mm, depth from 350 to 600 mm, height from 1100 to 2000 mm. The utility columns can come in the following size ranges: width from 300 to 600 mm, depth from 300 to 600 mm, height from 1100 to 2000 mm. In a single locker setup, the columns must have the same overall dimensions. The control panel column features a touchscreen display, RFID card reader and a QR code reader. The maximum number of compartments in one utility column is 8. In a single setup, a maximum of 20 utility columns can be set on one side of the control panel column. There might be 1 or 2 fronts in the control panel column and the display position height can be customized. Each utility column front color can be different. BookinGO lockers have side and top cladding. One item of top cladding is dedicated to up to 4 utility columns. The control panel column is always equipped with its own top cladding.

### Front opening

Please note the product code when choosing lockers. The code determines opening direction. Letter L as the fourth digit in the code means that all the fronts open to the left and R - to the right side (examples below).
