

# DATA SECURITY

## Irreversible certified data removal

---

We are the undisputed Polish leader in the field of professional, certified data and data media destruction solutions. We manufacture and distribute the highest class, technologically advanced degaussers and media shredders.

From the beginning of our activity, we have realized dynamic growth, presenting our offer nationally and internationally. Our knowledge, experience and market position are confirmed by numerous certifications, including ISO 9001:2015-10, ISO 27001:2022, ISO 14001:2015, AQAP 2210:2016.

## R&D Center

---

We are a leader in modern and intelligent technologies of data removal from various types of storage media.

Our innovative and technologically advanced R&D center is a place where high-class ProDevice devices (degausser and shredders) for removing information from electronic media are designed, created and tested.

## DATA SECURITY Products

- ✓ Degaussers.
- ✓ Deflashers.
- ✓ Storage media shredders.
- ✓ Data removal software.

ProDevice products comply with international information security guidelines. Degaussers and shredders are a perfect solution for companies and institutions that care about the highest standards related to data protection, which is defined by GDPR / RODO.

## DATA SECURITY Services

✓ **Data removal – degaussing process.**

We provide the service with a degausser that generates a magnetic field with a power up to 22 000 Gauss. We guarantee effectiveness and safety.

✓ **Physical destruction / utilization of storage media.**

We destroy the storage media with a professional industrial shredder, and then hand over for disposal.

✓ **IT equipment and media disposal.**

We ensure the effectiveness and safety of the utilized equipment and data stored on the media.

✓ **Data removal consulting service.**

Our qualified specialists advise on how to safely protect company data against unauthorized access.

✓ **Renting a degausser.**

We offer rental of a certified degausser, programmed for a specific number of data destruction cycles.

✓ **Data removal with software.**

We guarantee safe and irreversible data deletion from storage media using professional software.
